Filled Position Transfers	58

General Tips

- Using the correct Action/Action Reason is important for many reasons:
 1. The State Employee Personnel Roster uses Job Data to create the official record of an employee's job history.
 2. Some Action/Action Reasons trigger pay and/or benefit events. Using the correct combination ensures these events happen. Using the wrong combinations triggers events that should NOT happen.
 3. Workforce Reporting relies on data from PeopleSoft. If the data is wrong the reporting is wrong.
- If you ever have a question about the most appropriate Action/Action Reason to use please submit a JIRA ticket to Core Human Resources or contact DPM, Enterprise HR for guidance.
- NEVER add rows to Person or Job Data or submit Position Change Requests to correct an error on Person, Job or Position Data. Always submit a JIRA ticket requesting a correction.
- NEVER delete Person, Job or Position Data Rows even if the system allows you to. Always submit a JIRA ticket requesting the correction.
- Remember that effective dates are key to all data withing PeopleSoft HCM. The effective date of Person Data, Position Data, and Job Data are all dependent upon one another.
- Always use the lowest empl record number possible, if one exists, when you are rehiring. Don't create a new instance if you don't need to.

IMPORTANT:

CWR (contingent worker or "contractor") records can't be POI or Employee records.

POI records can't be CWR or Employee records.

Employee records can't be CWR or POI records.

You need to create a new instance if a POI becomes an employee or a CWR.

You need to create a new instance if a CWR becomes an employee or POI.

You need to create a new instance if an employee becomes a CWR or POI.

Contingent Worker & Person of Interest - Add, Complete, Update Supervisor

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
Add Contingent Worker	ADD	Contingent Worker	CWR	First day report to work	Used for adding new Contingent Workers (CWR or Contractor) into PeopleSoft and/or adding a new CWR instance. This should also be used when a CWR is starting a new contract on the same Empl Record as a previously completed one. <i>Note: New CWR instances should only be added if the CWR has multiple concurrent contracts.</i>	Active	Active	Active	MSC
Add Person of Interest	POI	Add Person of Interest	POI	First day report to work	Used for adding new Person of Interest (POI or Other Payee) into PeopleSoft. This should also be used to reactivate a completed POI instance or adding a new POI instance. <i>Note: Specific POI types will be selected at the time of adding a POI. We are unable to change the POI type after it is created. New POI instances should only be added if the POI has multiple concurrent instances.</i>	Active	Active	Active	POI
Completion	COM	Completion	COM	Day AFTER last date worked	Used to end a Contingent Worker or Person of Interest relationship. This reason should be used regardless of the reason for the relationship ending. <i>Note: Do not use termination actions on CWR or POI relationships.</i>	Terminated	Inactive	Active	TER
Data Change	DTA	Update Contractor's Supervisor	CWS	Sunday, beginning of PP	Used to change a supervisor in the reports to field on a contingent worker's (CWR) job data because the CWR is not in a position.	Active	Active	Active	MSC
REMEMBER									
CWR (contingent worker or "contractor") records can't be POI or Employee records. POI records can't be CWR or Employee records. Employee records can't be CWR or POI records.					You need to create a new instance if a POI becomes an employee or a CWR. You need to create a new instance if a CWR becomes an employee or POI. You need to create a new instance if an employee becomes a CWR or POI.				
CWR and POI instances should never have any personnel transaction rows (hire, rehire, transfer, promotion, demotion).									

Data Change

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
Data Change	DTA	Absence Eligibility Change	ABS	Sunday, beginning of PP	<p>Used to update an employee's absence eligibility group on job data when their FLSA status changes.</p> <p>For example: A position is reclassified or reallocated and the FLSA status changes from non-exempt to exempt or vice versa. After the position change has been made via the position change request form, a pay rate change row would be added to job data (if applicable) followed by an absence eligibility change row.</p> <p>This is also used when an employee is moving from one position to another and the FLSA status changes upon the personnel transaction (transfer, promotion, demotion). This does not apply to hires or rehires.</p> <p><i>Note: DO NOT add a row or use this action/reason to correct an error from a previous job row. If there was an entry error, create a ticket for correction.</i></p> <p>Also see Personnel Transactions - Order of Operations</p>	Active	Active	Active	DTA

Demotion

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
If the employee is hired via a recruitment in TAM do not process the personnel transaction manually on job data. Use manage hires. Separate sequenced pay rate change, absence eligibility, and/or benefits eligibility rows are still required.									
Transfer	XFR	Demotion Voluntary Between Agencies	VBA	Sunday, beginning of PP	Used for the personnel transaction of a voluntary demotion between agencies. Tax location is captured on this row. Requires separate sequenced pay rate change, absence eligibility change, and/or benefits eligibility change job data rows if applicable.	Active	Active	Active	DEM
Transfer	XFR	Demotion Voluntary Within Agency	VWA	Sunday, beginning of PP	Used for the personnel transaction of a voluntary demotion within an agency. Tax location is captured on this row. Requires separate sequenced pay rate change, absence eligibility change, and/or benefits eligibility change job data rows if applicable.	Active	Active	Active	DEM
Transfer	XFR	Involuntary Demotion	IND	Sunday, beginning of PP	Used for the personnel transaction of an involuntary demotion. Tax location is captured on this row. Requires separate sequenced pay rate change, absence eligibility change, and/or benefits eligibility change job data rows if applicable.	Active	Active	Active	DEM
Transfer	XFR	Demotion In Lieu of Layoff	LLA	Sunday, beginning of PP	Used for the personnel transaction of a demotion in lieu of layoff. Tax location is captured on this row. Requires separate sequenced pay rate change, absence eligibility change, and/or benefits eligibility change job data rows if applicable.	Active	Active	Active	DEM
Transfer	XFR	Demotion - Legislature Only	DEM		<i>To be used by Legislature ONLY.</i>	Active	Active	Active	DEM
<p style="color: red;">Remember: Demotions can only occur for Permanent/Classified Employees & cannot be used for LTE's, Project/Project, or Unclassified.</p> <p style="color: red;">Note: DO NOT use an action of transfer/promotion/ demotion to move employees in or out of surplus positions.</p> <p style="color: red;">See <u>Personnel Transactions - Order of Operations</u> and <u>Personnel Transaction Scenarios</u></p>									

Hire

↓ Every Employment Instance should only ever have ONE (1) Hire Row. Every subsequent "Hire" on the same Employment Instance should be processed as a Rehire ↓

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
If the employee is hired via a recruitment in TAM do not process the personnel transaction manually. Use manage hires.									
Hire	HIR	Hire No WRS	NWR	See Below	<p>Used when an employee is hired for the first time in PeopleSoft or a new employment instance is added and employee has no prior WRS service (either have never been covered by the WRS or have taken a separation benefit and no longer have any WRS service) and they are not coming from an affiliate.</p> <p>Comp rate and tax location are captured on this row.</p> <p>Review and update Continuous Service Date and Benefit Service Date if needed.</p>	Active	Active	Active	HIR
Hire	HIR	Hire Prior WRS	PWR	See Below	<p>Used when an employee is hired in PeopleSoft for the first time or a new employment instance is added and employee has prior WRS state service (they have NOT taken a separation benefit) and they are not coming from an affiliate.</p> <p>Comp rate and tax location are captured on this row.</p> <p>Review and update Continuous Service Date and Benefit Service Date if needed.</p>	Active	Active	Active	HIR

Hire Event Notes

- Hire Effective Date:
 - New hires are effective when the employee reports to work.
 - Hires **without a break in service or break less than 30 days** (e.g. new employment instances) are effective the Sunday, beginning of PP.
- If the employee is WRS-eligible, these job actions will open a HIR event in eBenefits. The benefits service date on the employment data page in job data must be correct when the HIR event prepares to ensure employee's eligibility for the employer contribution towards health insurance is determined correctly.
- Hire action/reasons do NOT drive the employee's eligibility for the employer contribution towards health insurance - the benefits service date on job data - employment data page does.
- If the benefit eligibility fields or benefits service date are not correct when hire entered, submit a ticket for correction. The HIR event will not prepare correctly if the information is wrong.

Hire Action Continued from Previous Page

↓ Every Employment Instance should only ever have ONE (1) Hire Row. Every subsequent "Hire" on the same Employment Instance should be processed as a Rehire ↓

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
If the employee is hired via a recruitment in TAM do not process the personnel transaction manually. Use manage hires.									
Hire	HIR	Hire from Affiliate	HAF	See Below	<p>Used when an employee is hired for the first time in PeopleSoft and is coming from another state payroll center (UW; UWH&C; Wisconsin Housing and Economic Development Authority (WHEDA); Fox River Navigational Systems Authority (FRNSA); Wisconsin Economic Development Corporation (WEDC); Wisconsin Health and Educational Facilities Authority (WHEFA); and there should be no lapse in benefits, or when the employee is moving between companies (WIS, LEG, COURTS) and there should be no lapse in benefits, or when an employee is approved for an LOA to fill either a project or unclassified appointment and you are creating a new instance. Hires of employees who have existing/active empl records with a different company (WIS, LEG, COURTS) require separate employment instances for each company.</p> <p>Comp rate and tax location are captured on this row.</p> <p>A HIR event in eBenefits does NOT open to employee - all benefits must be entered manually by Benefits Specialist on the HFA event.</p> <p>Review and update Continuous Service Date and Benefit Service Date if needed.</p> <p style="color: red;">Note: Agency may not know Benefits Elg Fld 2 value (ICI eligibility). If correction needed after HFA entered, create a ticket.</p>	Active	Active	Active	HFA
Effective Date to Use: <ul style="list-style-type: none"> New hires are effective when the employee reports to work. Hires without a break in service or a break less than 30 days (e.g. new employment instances) are effective the Sunday, beginning of PP. 									
Hire	HIR	Conversion	CNV	NA	Do Not Use. All active employees (and employees terminated within 45 days) at the time of conversion will have this.	Active	Active	Active	HIR

Layoff

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
Layoff	LOF	Seasonal	SEA	Day AFTER last date worked	Used for seasonal employees, such as those at DNR, who are permanent employees on a seasonal rotation.	Suspended	Active	Suspended	LOF
Layoff	LOF	Temporary Layoff	TMP	Day AFTER last date worked	Used for employees whose positions are funded by federal grants, and the federal government shuts down temporarily. In addition, this action/reason is used for temporary layoff under ER-MRS 22.14, Wis. Adm. Code or furloughs. This code is NOT used for permanent layoff, see Terminated with Benefits action/reason.	Suspended	Active	Suspended	LOF

Leave of Absence

Action Description	Action Code	Reason Description	Reason Code	Effective Date to Use	Use Explanation	Payroll Status	HR Status	Benefit Status	BAS Action
Unpaid Leave of Absence	LOA	Filling a Project Position	FPP	See Below	Used when an employee is on an approved leave of absence from a permanent classified position to fill a project position. They will not be paid for their permanent/classified position while on leave.	Leave of Absence	Active	LOA	LOA
Unpaid Leave of Absence	LOA	Filling Unclassified Position	FUP	See Below	Used when an employee is on an approved leave of absence from a permanent classified position to fill an unclassified position. They will not be paid for their permanent/classified position while on leave.	Leave of Absence	Active	Leave with Benefits	LOA

Note: A new employment instance will need to be added for the project or unclassified appointment if there isn't an available instance to use. Use Hire/Hire from Affiliate with a new instance or Rehire/Rehire from Affiliate with an existing instance to avoid benefit issues.

Must move the primary benefits flag to new employment instance to ensure benefit deductions continue.

Effective Date to Use:

Day AFTER last date worked and the same day as the appointment of the project or unclassified position which should be the Sunday, beginning of PP.

Position Change	POS	Reorganization	REO	Sunday, beginning of PP	Used for mass position changes as the result of reorganizations approved under s. 15.02(3) and 15.02 (4) of State Statute.*	X		X	X	X	

* Reorganization change reason: Those reorganizations are one or more of the following:

(a) creation or abolishment of a division, or the consolidation of divisions within an agency.

(b) expansion or contraction in the number of field operation units.

(c) creation, elimination of office, bureaus, or comparable subunits.

(d) transfer of an office, bureau or section which requires transfers between appropriations and (e) transfers of an office, bureau or subunit which does not require transfers between appropriations.

For reorganizations under (b), or (c) above, the approval letter from the Governor must be attached to the transaction.

For reorganizations under (c) and (d) an approval letter from the Department of Administration must be attached to the transaction.

For a reorganization under (e) the letter to the Department for information only must be attached to the transaction.

If already enrolled in Cat 1 ICI, no updates are needed. If employee previously had permanent status and/or is not enrolled in ICI, no updates to Elg Fld 2 are needed. Review/update time reporter data and absence eligibility
<p>Permanent Classified, Unclassified, or Project* to LTE (when the employee is rehired within 30 days of their resignation)</p> <p>*assumes Project covered under the WRS</p>	<p>Job Data Updates 2 HR Transactions</p> <ol style="list-style-type: none"> Termination/Resignation on Permanent/Unclassified/Project Appointment On same empl record, Rehire/Rehire Within 30 Days <p>Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> Delete TER event from BAS Activity Table prior to 5pm of the date of termination entry (otherwise benefits will be terminated) Review Benefits Eligibility Fld 1 (WRS) and update as needed on Rehire row, update Elg Fld 3 to identify if now eligible for ½ time or full-time health insurance premiums If enrolled in ICI, if in a permanent plateau (Cat 4, 5, or 6), do not update Elg Fld 2 – can keep current ICI coverage. If enrolled in Cat 2 or 3, update Elg Fld 2 to Cat 1. If enrolled in Cat 1, no update needed. Rehire row will create HFA event – confirm current elections are on event and finalize (benefits are continuous – no new enrollment opportunities) If employee wants to cancel benefits, will need to submit an application and entry must be done on a CAN event. No longer eligible for Healthcare FSA or Dependent Day Care FSA. Review/update time reporter data and absence eligibility

Remember, any movement between Empl Classes requires a Term and Rehire.

Scenario	Transaction(s)
<p>LTE (who is enrolled in the WRS) to Permanent Classified, Unclassified, or Project (when the employee is rehired within 30 days of their LTE termination)</p>	<p>Job Data Updates 2 HR Transactions</p> <ol style="list-style-type: none"> 1. Termination/End LTE Appointment 2. On same empl record, Rehire/Rehire Within 30 days <p>Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • Delete TER event from BAS Activity Table prior to 5pm of the date of termination entry (otherwise benefits will be terminated) • Review Benefits Eligibility Fld 1 (WRS) and update as needed on Rehire row, do not update Elg Fld 2, remove value from Elg Fld 3 • Rehire row will create HFA event. If newly eligible for full employer contribution towards health insurance, can enroll within 30 days of hire. Can also enroll in Healthcare FSA and Dependent Day Care FSA. • Update Company Seniority Date • Review/update time reporter data and absence eligibility
<p>LTE (who is <u>not</u> enrolled in the WRS) to Permanent Classified, Unclassified, or Project</p>	<p>Job Data Updates 2 HR Transactions</p> <ol style="list-style-type: none"> 1. Termination/End LTE Appointment 2. Rehire/Original Appointment No WRS (or see Rehire action reasons for applicable reason) <p>Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • Delete TER event from BAS Activity Table prior to 5pm of the date of termination entry. This will prevent the Termination event from possibly terminating benefits entered on the Hire event. • Update Elg Fld 1 with the applicable WRS category, update Elg Fld 2 with the applicable ICI category, remove any values that may be in Elg Fld 3 • Rehire row should create a HIR event will open to the employee in eBenefits (eligible to enroll in all benefits). • Update Company Seniority Date and Benefits Service Date (to account for WRS begin date) • Review/update time reporter data and absence eligibility
<p>LTE moves to another LTE position</p> <p>Note: If there is a break of more than one pay period, the LTE appointment should be termed and rehired.</p>	<p>Job Data Updates 1 HR Transaction</p> <ol style="list-style-type: none"> 1. Transfer/New LTE Appointment (see below for additional entry if employee becomes WRS eligible) <p>Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • If not under the WRS, evaluate if WRS eligibility expectations relative to hours worked/duration have changed and the employee should go under the WRS. If newly eligible for WRS, after the first job entry, enter another effective sequenced row for the same date with the action reason of Data Change/Benefits Eligibility Config and update Elg Flds 1, 2 and 3. Update the Benefits Service Date to reflect the WRS begin date. Enter any benefits elections on the ELG event.

Remember, any movement between Empl Classes requires a Term and Rehire.

Scenario	Transaction(s)
<p>LTE is hired into an additional LTE Appointment (WITHIN the SAME agency)</p>	<p>Job Data Updates Create a new employment instance (Hire) or use an eligible inactive employment instance (Rehire)</p> <p>HR, Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • If not under WRS, determine if 2nd LTE appointment makes the person eligible for WRS. If yes, on the new LTE job, update Elg Flds 1, 2 and 3 with the applicable values. On the original LTE appointment, add a job row effective the same date as the new LTE appointment with an action reason of Data Change/Benefits Eligibility Config and update Elg Flds 1, 2 and 3 with the same values entered on the new LTE appointment. <ul style="list-style-type: none"> ○ Update the benefits service date to the WRS begin date ○ Finalize the HIR event that is created from the new job (employees should not use eBenefits to enroll in benefits in this situation) ○ Collect paper applications from the employees and enter enrollments on the ELG event • If under the WRS, <ul style="list-style-type: none"> ○ Finalize the HIR event that is created because it will open to the employee in eBenefits ○ If the 2nd LTE appointment changes eligibility for the employer contribution towards health insurance. <ul style="list-style-type: none"> ▪ Enter LTEFULLSGH in Elg Fld 3 on the new appointment and add a job row effective the same date as the new LTE appointment with an action reason of Data Change/Benefits Eligibility Config and update Elg Fld 3 to LTEFULLSGH on the original LTE appointment. ▪ The employee has 30 days to enroll in health insurance – enter on the ELG event.
<p>LTE is hired into an additional LTE Appointment (BETWEEN agencies)</p>	<p>Job Data Updates Create a new employment instance (Hire) or use an existing eligible employment instance (Rehire) – see benefit record information below.</p> <p>HR, Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • WRS eligibility is determined by agency – look at expectations of LTE appointment at the agency only to determine if eligible for the WRS • If active at another agency, the new appointment should have a different benefit record than the job at the other agency. Reach out to the other agency to confirm the benefit record they are using and when creating the new LTE job, update the benefit record to one greater than the benefit record at the other agency (typically you will create benefit record 1). If using an existing employment instance, reach out to DPM Central Benefits to determine how the entry should be done.

Movement Between Companies	<p>Job Data Updates</p> <ul style="list-style-type: none"> • Sending organization – 1 HR Transaction <ul style="list-style-type: none"> ○ Termination/End Job Continue in Other Job (this creates a DTA event so benefits are not terminated) • Receiving organization <ul style="list-style-type: none"> ○ Create a new employment instance (Hire/Hire from Affiliate) or use an existing eligible employment instance within your same company (Rehire/Rehire from Affiliate) <p>Payroll & Benefits Considerations</p> <ul style="list-style-type: none"> • Confirm that the benefits flag has been moved to the new employment instance – update as needed • A HIR event will be created by all benefits should flow into the event. Confirm the enrollments and finalize the HIR event. The employee should not make any benefit election on the HIR event in eBenefits.
-----------------------------------	--

Reminders

- Do not add a separate pay rate change row for hire, rehire, or original appointment transactions.
- Do not add a separate pay rate change row for transfer – new LTE appointment, transfer – new project appointment, or transfer – new unclassified appointment transactions.
- When no break in continuous service, termination row and rehire row should have same effective date (Sunday) – increase the sequence.
- If the rehire following a term will be at a different agency, sending agency must enter term prior to receiving agency transacting on the record.

Important:

- When using a termination action in conjunction with the rehire – rehire within 30 days action/action reason, you must delete the TER event by 5pm on the day that it is entered.
- Use rehire – rehire within 30 days action/action reason for employees who already have benefits, including WRS.
 - This reason will open HFA event to benefits administrator and carry through the employee's current elections.
 - Using any other rehire action/action reason may result in benefits event opening to employee and the employee's benefits terming if already enrolled.

Personnel Transactions - Order of Operations

Reclassification or Reallocation	<ol style="list-style-type: none"> 1. Use position change request to change job code. Wait for the position change request to process and create a job data row. 2. If the employee is regraded with the reclass or reallocation, add a pay rate change/regrade job data row to update the comp rate. 3. If the FLSA status changes with the reclass or reallocation, add a data change/absence eligibility change job data row to update the absence eligibility. 4. If the benefits eligibility changes with the reclass or reallocation, add a data change/benefits eligibility change job data row to update the Elig Flds.
Transfer/Promotion/Demotion Between Permanent/Classified Positions (Within Agency)	<ol style="list-style-type: none"> 1. Add job data row for transfer/promotion/demotion/within agency updating position number, officer code, bargaining unit/labor agreement, tax location, and employee category. 2. If the employee is receiving a comp rate change with the transaction, add a pay rate change/transfer/promotion/demotion row to update the comp rate. 3. If the FLSA status and/or absence eligibility changes with the transaction, add a data change/absence eligibility change job data row to update the absence eligibility. 4. If the benefits eligibility changes with the transaction, add a data change/benefits eligibility change job data row to update the Elig Flds. <p>Note: If you are using the Manage Hires function within TAM to process the transfer/promotion/demotion, you will not manually process the personnel transaction as instructed above. The Manage Hires function will add the personnel transaction to the employee's job data. You do need to manually add the pay rate change, tax location change, absence eligibility change, and/or benefits eligibility change on Job Data.</p>
Transfer/Promotion/Demotion Between Permanent/Classified Positions (Between Agencies)	<p>WAIT until the sending agency confirms that all time has been entered and approved.</p> <ol style="list-style-type: none"> 1. Use the job change request to "steal" the employee from the sending agency. (Only if NOT using the Manage Hires function in TAM) 2. Add job data row for transfer/promotion/demotion/between agencies updating officer code, bargaining unit/labor agreement, tax location code, employee category, and pay group. 3. If the employee is receiving a comp rate change with the transaction, add a pay rate change/transfer/promotion/demotion row to update the comp rate. 4. If the FLSA status changes with the transaction, add a data change/absence eligibility change job data row to update the absence eligibility. 5. If the benefits eligibility changes with the transaction, add a data change/benefits eligibility change job data row to update the Elig Flds. <p>Note: If you are using the Manage Hires function within TAM to process the transfer/promotion/demotion, you will not manually process the personnel transaction as instructed above. The Manage Hires function will add the personnel transaction to the employee's job data. You do need to manually add the pay rate change, tax location change, absence eligibility change, and/or benefits eligibility change on Job Data.</p>

Return From Leave - Order of Operations

<p>Employee Returns from and Unpaid LOA <i>Adoption, Candidate for Partisan Office, Education, Exceptional Personal Reasons, FMLA, Maternity Leave, Medical, Military Service, Paternity Leave, Worker's Comp</i></p>	<ol style="list-style-type: none"> 1. Enter each intervening Pay Rate Change, sequencing each one in the order in which they would have happened, using the actual Pay Rate Change Action Reason, all effective on the Sunday of the beginning of the Pay Period in which the employee is RFL. 2. Enter the RFL/RFL effective the day the employee is returning to work. <p>EXAMPLES:</p> <p>Employee is on an Unpaid LOA/Military Service effective 11/20/2019 and is RFL effective 2/7/2020</p> <p>Intervening Pay Rate Changes effective the beginning of the pay period in which the employee is RFL</p> <p>2/2/2020, effective sequence 0 – Pay Rate Change/GWA – for the 1/5/20 GWA</p> <p>2/2/2020, effective sequence 1 – Pay Rate Change/Market – for a missed Market Adjustment (effective after the 1/5 GWA) while on LOA</p> <p>2/7/2020, effective sequence 0 – RFL/RFL</p>
<p>If the employee was on a Paid LOA and/or did not miss any intervening pay rate changes, you only need to process the RFL effective the day the employee returns to work.</p>	

Filled Position Transfers

When a filled position has changed to a degree that requires competition and an employee competes for and is hired into their same position number, the following steps are needed to enter the transaction:

1. Use position change request to update position to reflect the new classification, using the change reason of classification. If the FLSA status is also changing this should be done on this row. The effective date should be the day the transaction will be effective.
2. Process the personnel transaction on job data with the same effective date – transfer/within agency.
3. Add a pay rate change/transfer job data row, if applicable
4. Add a data change/absence eligibility job data row, if applicable
5. Add a data change/benefits eligibility configuration job data row, if applicable
6. Submit ticket for DPM to delete position change/classification row from incumbent's job data AND manually correct position entry date

This same order of transactions may be used in some other limited circumstances when an employee needs to be moved either within the same position or between positions. Always communicate with DPM Enterprise HRIS Operations when considering using this type of transaction combination.
